Bien Démarrer son Projet : PROTIPS

● ● ●

Paul "eazhi" Khuat-Duy
Quentin "sunbro" Barbarat

Teamwork

- Don't trust your teammates
- Learn to trust your teammates (or never do)
- Help each other
- Communicate a lot
  - Create a Discord server / Slack channel / IRC / Pictochat
- You don't think you're going to rush, but you're going to rush

Website : Presentation

- Can be static or dynamic
- Use bootstrap from the start (https://getbootstrap.com/)
- W3Schools saves lives (https://www.w3schools.com/)
- Django can be cool (https://www.djangoproject.com/)
- Don't overdo it
- A little fancy CSS goes a long way
- Design your own icons and include them in the game

Website : Examples

- Defense 1 : (https://etwyniel.github.io/PharaohsLostSpirit/)

image manipulation.

n excited to code the night away on this p

Quentin Barbarat

Website : Hosting

- Github Pages - Static only (https://pages.github.com/)
- Host it yourself
  - Locally : WAMP
  - At home : GNU/Linux + Apache / NGINX + noip

Git & collaboration

- Unity Collab
- Setup your .gitignore correctly
- Work on different scenes
- Commit frequently (every time something works)
- Don't git blame, fix the problem instead
- Private repo for work = Public repo for release

Unityps

- CHOOSE ONE VERSION OF UNITY
- Work on different scenes
- File names (CharMove.cs and charMove.cs)
- Sort your project (images/scripts/animations/whatever...)
- BRACKEYS (https://www.youtube.com/brackeys)
- Don't try to have AAA graphics
- Plan cheats for your defense
  - Not too much
  - Don't show all of them …
- YouTube and doc, learn to educate yourself :D

Reports and Book of Specifications

- DO NOT TRUST GOOGLE TRANSLATE
- If it's in your BoS, it's in the final version !
- LaTeX is required, learn to use it !
  - ShareLaTeX - (https://www.sharelatex.com/)
  - Overleaf - (https://www.overleaf.com/)
- Don't hesitate to use images
- Use extarticle for 14pt
- Print it early and bring an outline

Defenses

- Murphy's law
- Bring more than one computer
- Check the video cables in advance
- DVD needed for final defense + Installer
- Don't forget the installation guide (Go retro !)

HAVE FUN !
Questions ? Remarks ? Something unclear ?
